Are you looking for a simple, efficient way to train you workers? Are you tired of showing the same safety video year after year and losing workers attention? Now you can have a more interactive approach with Tailgate Training Kits! A simple system for training using simple explanations, demonstrations and examples, illustrated by pictures, is now available from GAP Connections.

A tailgate training kit contains one Supervisor packet and two Worker Training packets. Each of those packets have 5 sheets of laminated documents which cover one training topic. Supervisor packets are used to conduct the training. Worker packet are used by workers to follow along with the supervisor. The Supervisor’s training packet has questions, examples, instructions and training script for the training, on the back side of the laminated sheet, describing what employees are seeing on the front side. This makes the training easy to conduct and to understand.

Available Tailgate Training Topics:

- Green Tobacco Sickness Awareness
- Farm First Aid
- Pesticide Safety Awareness
- Heath Illness Prevention
- Farm Safety Orientation
- Sexual Harassment Prevention
- Hazard Communication
- Tractor Operator Safety

A tailgate Training Kit is ideal for seasonal workers and new workers to get them more familiar with basics of farm safety, tobacco hazards and workers’ rights. You can train your workers in the field, barn or around the tailgate. How convenient is that!
