8/4/2016 Springfield, KY

Labor Management Workshops

If you or someone on your farm supervises workers this workshop is for you! This workshop will also help anyone involved or interested in becoming involved with the H-2A program.

Why attend?

Learn how to improve compliance, get questions answered and better understand the do's and don'ts of labor management including the use of crew leaders, crew bosses, or H-2A labor in order to avoid fines and penalties.

What are your rights as an employer? How do I best source labor? How do I create an environment where job expectations are clear? How can I provide the best work place for myself, my employees and my family?

Not your typical training!

This training is hands-on and engaging. The hope is that individuals walk away with tangible ways to improve their business, compliance and skills. This is not just another PowerPoint meeting! These workshops will be provided in Spanish and English.

Bring your Labor Management

Bring your crew leaders, farm labor contractors and/or supervisors and provide them the opportunity to learn how to improve their skills and help your operation remain compliant and successful.

Labor Management Registration

Kentucky On-farm Safety and Compliance Training

GAP Connections is organizing three On-farm Safety and Compliance Training events and is inviting you and your employees to attend.

These training events are sponsored by Universal Leaf North America, Alliance One International, Hail & Cotton, Phillip Morris International and R.J. Reynolds and have been organized to help growers provide their employees training and resources on important safety, health, and regulatory topics.

This is a great opportunity for you and your employees to receive all the required safety training from the experts in one day, at one location. There will be door prizes including: first aid kits, SDS compliance centers, tailgate training kits and more!

Following Topics will be provided in English and Spanish:

• Field Sanitation • GTS/ Heat illness • Housing and Transportation • MSPA and H-2A Program • Pesticide Safety • Farm Equipment Safety First Aid/ CPR • Sexual Harassment Prevention

Refreshments and snacks will be provided.

Registration Required!

FREE EVENT

Looking forward to seeing you at the event, RAIN or SHINE!

On-farm Training Registration

Please bring your Grower ID card to each of these the events. GAP Connections staff will scan your card and add the Worker Safety Training credit to your transcripts. You will also receive a training documentation listing workers' names and training topics for your GAP Records. Your workers will receive a Worker Training Card confirming their attendance and listing the training topics covered.
